GIVEN HEARTY WELCOME.

American Institute of Instruction at Portland, Maine.

Portland, Me., July 11.—Members of the American Institute of Instruction were given a hearty welcome to the city last night at the opening of their 73th annual convention, which was called to order by President Charles H. Keyes of Hartford, Conn. The city hall, where the principal session will be held today, Wednesday and Thursday, was filled with members and citizens. The visitors were welcomed by Mayor James P. Baxter.

The address of State Superintendent of Schools W. W. Stetson of Maine upon the topic "Educational Ideals" was considered a feature of the convention programme.

STOLEN GOODS RECOVERED.

William Cuyler in Burlington Jail, Charged With Robbery.

Burlington, July 11.—For the second time within a few months William Cuyler is in jail on a charge of robbery. He was arrested yesterday by the police, charged with stealing a gold watch, a watch chain, a dozen solid silver tea spoons and a ring from Mrs. Helen M. Spear of Colchester avenue. The police have recovered some of the property.

Cuyler was first arrested on a charge of stealing a trunk from Adams Mission. He was held for trial at the county court in the sum of \$200, which he furnished. Only a few days ago he was arrested for being drunk. At that time his house was searched for the goods stolen from Mrs. Spear but nothing was found. Since then additional evidence against him has been procured. He will probably have a hearing soon.

YOUNG ITALIAN BOY SHOT.

May Have Been Mistaken for a Deer by Hunters.

Rutland, July 11.—The eight-year-old son of Louis Petronella, an employee of the Griffith Lumber Co., was found Sunday afternoon in the woods of Mount Tabor, with several buckshot in his back. The boy died soon after he was found. It is thought that he may have been mistaken for a deer by Italian hunters. There is no clue to the person or persons who did the shooting.

CAUSED A SENSATION.

Lord Roberts Says Great Britain's Military Is Inadequate.

London, July 11.—Field Marshal Lord Roberts created a sensation in the house of lords last evening, when in a lengthy and well considered speech he deliberately expressed his opinion as a practical soldier, that the military force of Great Britain was inadequate, imperfectly trained and totally unfit to uphold Great Britain as a first-class power.

BRISTOW RECOMMENDATIONS.

Regarding Government Management of Panama Railroad.

Washington, July 11.—The report of Joseph L. Bristow, who was appointed a special commissioner to investigate trade conditions and other matters affecting the Panama Railroad and Steamship company was made public yesterday. The report discusses what policy should be pursued by the government in the management of the railroad and makes a number of important recommendations. Among these are the continuance of the railroad as a commercial line with improved facilities for handling commerce, including double tracking and re-equipping the line with modern rolling stock; the enlargement of port facilities; the retention of the steamship line between New York and Colon; the cancellation of the contracts with the Pacific Mail Steamship company and the South American lines and the opening of the ports of Colon and Panama to all steamship lines on equal terms; and in certain contingencies the establishment by the railroad of steamship lines between Colon and Gulf ports and Panama and important United States Pacific ports. It is also recommended that in traffic connections American steamship lines be favored as far as consistent with the treaty obligations of the United States.

GOWN GOSSIP.

The picture hat is as immortal as the phoenix.

The elbow sleeve has taken a firm hold on the popular fancy. With it are usually worn tight fitting lace half sleeves or voluminous ruffles.

The bathing suit of this day and generation is made of taffeta, mohair or pongee, although the last named fabric is still more or less of an experiment.

A pretty new accessory of dress has appeared in belts and bretelles of embroidered linens. They are meant to be worn with linen skirts and lingerie waists or even with cloth skirts and white blouses.

A word of advice: Do not buy polo turbans at any price. They cannot last much longer, and the day after they cease to be fashionable every one will discover that they are perfectly hideous.—New York Post.

COLLEGE AND SCHOOL.

Dr. Pollock, president of the Georgia university, has given his fine library to that institution. The books represent twenty-five years of effort in book gathering.

The highest honors in the senior class at Cornell have been awarded to Miss Jessie R. Fauset, a colored woman, and the only woman student of her race in the college of arts. In her course she has had to compete with something like 100 white students.

Principals and teachers in the city schools of Denver have combined to eliminate the excessive social life of the school children of the city, and to that end they have placed a ban on school societies and, furthermore, assumed the right to dictate regarding the behavior of students outside of school hours.

THE ROYAL BOX.

Catherine the Great never forgot a face or a name.

Kaiser Wilhelm II. is said to be one of the hardest worked men in existence. He never postpones any kind of business, even if it interferes with his repose.

The young Princess Victoria of York was recently asked whether she would like to have a little sister. "A sister? Yes," she said on deliberation—"a sister, but not another princess."

Queen Christina of Spain, who inherited an immense private fortune from her uncle, the late Archduke Albert of Austria, has for a number of years held some \$3,000,000 worth of United States bonds and retained possession thereof even throughout the war of Spain with this country.

SCIENCE SIFTINGS.

A new Scottish work attempts to prove from geological phenomena that gravitation is electrical and that it is identical with terrestrial and solar magnetism.

Through a new invention Professor A. S. Arberius, the great Swiss astronomer, has recently weighed the sun's corona and found its weight to be 25,000,000 tons.

A German scientific paper describes a new registering rain gauge, in which each drop falls on a balanced arm, which dips under it, closes an electric circuit and registers the fall. The number of drops in half a minute indicates the intensity of the shower, and curves of it can be drawn from them.

"THERE IS NO PLACE LIKE HOME" When you own the "Home." If you contemplate owning a home, secure a good location while you may and keep in mind that it costs as much, frequently more, to build on an ordinary location as on a desirable one—one on which you can realize instantly its cost, or even more, at any time you desire to do so, near business and in good neighborhood. Cut down cost of house rather than of the lot. Let us give you prices of lots on several of the best streets in the city. Ask us about them. Prices right. Terms easy. Enquire of us.
